

# Seplat Energy transforms document search and access control with InfoSearch

## THE DISCOVERY PROCESS

Seplat Energy was introduced to InfoSearch through a direct recommendation from Microsoft, driven by:

- Infinion's Microsoft specialization and customer-centric delivery approach.
- Deployment of cutting-edge, scalable technologies that evolve as new advancements emerge.
- Customization of the solution to align with Seplat's internal technical capabilities, allowing their in-house developer team to manage the system after handover with minimal friction.

## SMOOTH ONBOARDING AND ADOPTION

InfoSearch was designed to be intuitive and easy to use, supported by comprehensive, step-by-step documentation that made onboarding seamless for Seplat's employees. Adoption was rapid across the organization's multiple locations, with the system's robust access control simplifying global roll-out.

## CUSTOMIZATION THAT REFLECTS SEPLAT'S BRAND

- Custom colors, logos, and fonts.
- Branded favicons and design elements that aligned with Seplat's corporate guidelines.

The end result was a solution that felt like a natural extension of Seplat's existing digital environment.

## BUSINESS IMPACT

Since deploying InfoSearch, Seplat Energy has experienced:

- Improved Search Efficiency: Employees can now find relevant information quickly and with confidence.
- Enhanced Data Security: Controlled document access ensures data integrity and confidentiality across departments and countries.
- Scalable Growth: Seplat can now accommodate exponential data growth without system limitations.
- Employee Satisfaction: A user-friendly interface, tailored to the company's look and feel, promotes daily engagement and trust in the system

## AT A GLANCE

### COUNTRY

Nigeria

### CUSTOMER SIZE

Large (1000 - 9999 employees)

### INDUSTRY

Financial Services

## BUSINESS AREA

Data and AI

## SOLUTIONS

- Logic App
- Azure Monitor
- Azure OpenAI
