

WEMA Bank Leverages INFINION to Secure Azure Databases

CHALLENGE

WEMA Bank needed to be able to monitor what is going on within their database and what kind of queries different users are running. It also needs to be able to carry out mitigation actions based on these actions depending on authorization

SOLUTION

The Azure services was combined to collect additional data from the databases, this was then monitored for different activity categories which will determined the response case, which are either alert or alert and suspend. This is then used to build a report to have a visibility in a glance

RESULTS

- Visibility to activities happening in the database
- Mitigation of unauthorised activities
- Security compliance of activities within the database

AT A GLANCE

COUNTRY

Nigeria

CUSTOMER SIZE

Large (1000 - 9999 employees)

INDUSTRY

Finance & Banking

BUSINESS AREA

Data and AI

SOLUTIONS

- Logic App
- Azure Monitor
- Sentinel
- Power BI
